

A modern dining room interior featuring a dark, reflective glass dining table with four green velvet chairs. The table is set with a black and white spherical ornament. The background shows a grey sofa, abstract art, and a marble wall. The image is framed by diagonal beige and brown geometric shapes.

ETILE

**Company profile**

# Ceramics **inspired by** innovative architecture

# Presentation

ETILE is a company that designs and sells ceramic floor and wall tiles using the latest technology on the market, which allows us to care for every last detail and to generate great finishes, reliefs, tonalities, patterns and formats.

Discret and minimalist collections where the format and subtlety of the nuances in the textures create unique and exclusive pieces. ETILE's collections are designed under technical and aesthetic criteria that grant the product a high level of versatility and uniqueness.

Designs inspired by Mother Nature, cared to the smallest detail and meticulously elaborated with de last digital technology, which transmit great beauty and harmony.

POLLUTION

Ceramic collections **that create** unique spaces

# Designs

The people who create ETILE products work together with production and quality technicians to create collections tailored to present and future needs, new finishes and a variety of colors and designs resulting from trend research. ETILE is aware of the very diverse preferences that prevail in different markets around the world to create collections with a global mentality.

Additionally, if one thing distinguishes ETILE it's the fact that the entire team has in- depth knowledge of ceramics and countless production techniques and methods, enabling the company to create innovative solutions, which is what makes ETILE collections so different.

# Product

Ever since its inception, **ETILE** has continued to follow a customer-service oriented strategy and constantly strives to suit the tastes and meets the needs of society.

This working method has resulted in a product diversification policy and **ETILE** currently have a wide range of products, with materials coming in traditional porcelain and white body formats.

**Use of the finest raw materials**

# Materials

## Porcelain

ETILE's porcelain is a highly durable ceramic product with outstanding technical performance. Technical qualities and design that come in the form of marble, stone and ceramic inspired by cement, textiles and wood.

## White body

Material with exceptional technical characteristics, most notably the brightness of the colours. Wide range of sizes and finishes inspired by wood, cement, marble, stone and textiles.

# People

ETILE has a team of great professionals: young, dynamic, clearly customer service-oriented and with a global focus.

The company believes in opportunities and growth. So training is continuous.

**A great team with global reach, strong service and customer focus.**

# We protect the planet

Our tiles are produced under the Integrated Environmental Authorisation issued by the authorities in accordance with Council Directive 96/61/EC - IPPC (Integrated Pollution Prevention and Control).

In ETILE, we make sure our products are made with:

- A rational use of water
- Noise controls.
- Air emission controls.
- Selective waste sorting.
- Energy consumption saving systems.

**We are close to you**

# Communication and promotion

ETILE is present at world's top ceramic trade shows.

- Cevisama (Spain)
- Cersaie (Italy)
- Coverings (USA)

# Exhibition space

ETILE's showroom is designed to enable visitors to appreciate the aesthetic and technical qualities of the ceramic and also discover its different uses.

Over 300 m<sup>2</sup> designed to offer a unique experience.  
Over 1,000 visitors come to this space every year  
from across the world.

# Global presence

Promoting our presence in new markets is part of ETILE's DNA and it has allowed us to be present in over 130 countries.

**ETILE works with the best chains and distributors in the world.**
